EDUCATION

Sripatum University (Bang Khen), Bangkok *Expected 2028*
B.S., Computer Science and Software Development Innovation — Year 3, GPA: 3.90

EXPERIENCE

Founder *Aug 2026 – Present*
Stealth Startup, Bangkok

- Building an edge-first B2B platform tailored for Thai-operated service businesses in the United States.
- Eliminating upfront cloud costs by architecting on the Cloudflare developer platform (Workers, R2, D1) on a $0 infrastructure budget.
- Directing product roadmap, end-to-end engineering, and go-to-market strategy in a two-person team.

Freelance Web Developer *Sep 2026 – Present*
Self-employed, Bangkok

- Delivered production web solutions for paying clients, managing the full lifecycle from architectural planning to cloud deployment and client handover.
- Solved client budget and maintenance bottlenecks by implementing serverless edge architectures with zero recurring server upkeep.

PROJECTS

AMPH — Musician & Crew Booking Catalog *a-mph.com · 2026*
TypeScript, Vinext, React, Cloudflare Workers, R2, Hono, Supabase, PostgreSQL, Drizzle ORM, LINE OA

- **Problem Solved:** Client needed to catalog tens of thousands of artist portfolio images on a strictly limited budget, while avoiding complex checkout friction for Thai event organizers.
- **Solution & Impact:** Re-architected storage onto Cloudflare R2 with global CDN caching, scaling capacity to 60,000+ images with $0 egress fees and instant image delivery; streamlined client booking conversions via automated handoff to LINE Official Account.

FriendHouse — Figure Shop E-Commerce Platform *github.com/hazeco/CSI402 · 2026*
C# (.NET 10), ASP.NET Core MVC, Entity Framework Core, MySQL, Razor Views, Tailwind CSS, BCrypt

- **Problem Solved:** Collectible figure retail operations suffer from inventory discrepancies and data conflicts across pre-orders, multi-tier reward points, cart promotions, and audit receipts.
- **Solution & Impact:** Built a full-stack e-commerce engine on a 15-table normalized MySQL schema with EF Core, establishing atomic transaction handling for pre-orders, promotion rules, point redemptions, and session-based authentication as solo developer.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C# (.NET 10), Java, SQL, HTML, CSS

Frontend: React, Next.js, Vinext, Vite, Tailwind CSS, ASP.NET Core MVC, Astro, Bootstrap

Backend & Cloud: Node.js, Express, Hono, Cloudflare Workers, R2, D1, KV, Supabase, PostgreSQL, MySQL

Tools & DevOps: Git, GitHub, Docker, Postman, Figma, REST APIs, Turborepo, Drizzle ORM, Prisma

LANGUAGES

Thai (native) · English (conversational)
